

Measure. Cut. Seal.

OMG Tubos® are prefabricated plumbing vent pipe extensions. During re-roofing operations, they are the fastest, strongest and most cost-effective method for extensions.

When additional layers of insulation are added to the roof, many vent stacks fall out of code compliance. National and local building and plumbing codes require that vent stacks are a certain height above the roof surface. This is the ideal situation for using OMG Tubos!

OMG Tubos are made with an integral six-inch long joint splice sleeve insert at each end, allowing for one OMG Tubos unit to be cut and used to extend two vent stacks!

Meeting Code Made Easy!

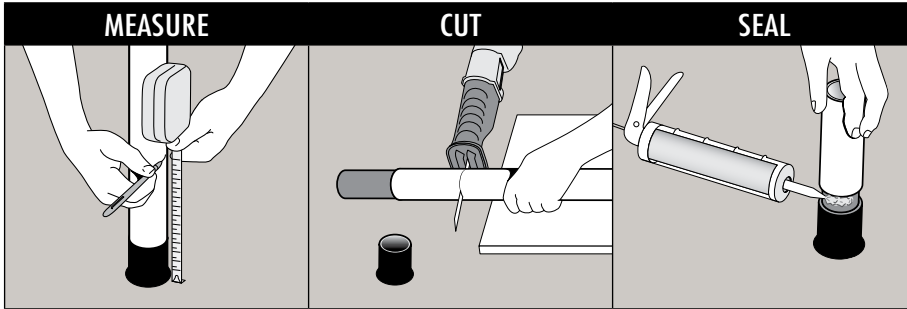

FEATURES & BENEFITS

- Just three easy steps: measure, cut to length, seal in place with caulk. Meets code!
- Three sizes (2-, 3- and 4-inch), are compatible with both cast iron and PVC vent pipes and accommodates the majority of vent pipes.
- Simple 3- to 5-minute project.
- Properly installed OMG Tubos will not leak and eliminates call-backs.
- Labor saving and economical compared to alternate methods.
- Sold and serviced by OMG Roofing Products – so you know it can help improve rooftop productivity.

Three convenient sizes!

SIMPLE THREE-STEP PROCESS

1. Insert the OMG Tubos into the existing vent pipe, and measure the correct height (check local plumbing code requirements).

2. Cut the Tubos according to your marking.

3. Reinsert the OMG Tubos and apply caulk around the top lip of insert sleeve to keep the methane gas in, then flash as normal.

That's it!

You've just turned a complicated 15- to 30-minute job using alternative methods into a simple 3- to 5-minute project, and you have another OMG Tubos in hand for the next vent stack. It's fast, efficient, economical and does not require any special tools.

Patented OMG Tubos products are also designed to keep water from leaking into the roof assembly and will fit the inside diameter of 2-, 3- and 4-inch PVC and cast iron vent pipes.

ORDERING INFORMATION

SKU	SIZE (DIAMETER)	OVERALL LENGTH/UNIT	QUANTITY/BOX	BOX WEIGHT
TUBOS2	2"	28"	18	36 lbs.
TUBOS3	3"	28"	12	38 lbs.
TUBOS4	4"	28"	9	40 lbs.

OMG is the leading U.S. manufacturer and supplier of roofing fasteners, roof insulation adhesives, retrofit roof drains, pipe supports and roof repair tape. Our products are available nationwide through a network of roofing distributors, and supported by our national network of direct factory sales personnel.
