

# **AES RAPTOR** **SKYNET™** PATENT PENDING

## **Complete Skylight Fall Protection System**

Falls through skylights are the leading cause of death and a major cause of injuries on construction jobs. With an estimated cost of \$200 to cover each skylight, each time, protecting your workers can be expensive. SKYNET is an easy-to-use, re-usable, cost-effective solution for skylight fall protection. Simply lay a SKYNET over a curbed skylight, and you're protected from falling through to the level below. Use a SKYNET on every skylight to meet OSHA regulations and requirements.

*Optional  
Secure-Attach  
Brackets for  
Permanent  
Mount*

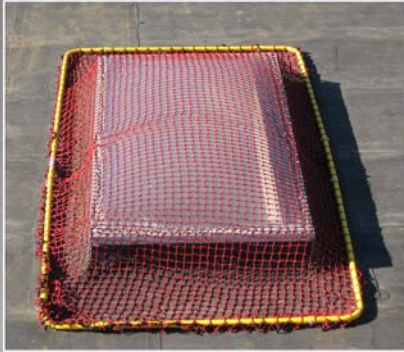

- **OSHA Compliant**
- **Easy to Set Up & Use**
- **Re-use Over & Over**
- **Saves Money & Time**
- **Optional Secure-Attach Brackets**

## AES Raptor SKYNET™

### Complete Skylight Fall Protection System

Easy to use!

Compliant with OSHA regulation  
1926.502(b)(4)(i) as a skylight cover  
for fall protection.

Military Grade Netting  
withstands 895 lbs of force per strand  
(80-120 strands per SKYNET,  
depending on model)

OSHA estimates it costs \$200 to  
cover a skylight - each time.

The SKYNET pays for itself  
almost immediately.

SKYNET is available in three  
standard sizes:  
3'x3', 6'x6', and 6'x12'

Custom sizes available

Each SKYNET is treated with a  
special coating of UV protectant.

Optional Secure-Attach Brackets  
allow semi-permanent or  
permanent installation.

\* The SKYNET does not protect a skylight from damage or breakage. If breakage does occur, the SKYNET will not prevent pieces or debris from falling. The SKYNET is designed to keep a worker from falling to the surface below, protecting from serious injury or possible death.
